

Kestrel Ledger

AI accounts-payable and close automation for mid-market CPA firms

Raising: \$100,000 SAFE at a \$9M cap

Team

- Founded by 2 CPAs and the ex-Xero head of ML.
- Previously grew an invoice-OCR product to 3,000 firm seats before acquisition.

Traction

- Hit \$62,000 MRR in June 2026, fully self-serve.
- 240 paying customers across three countries.
- Revenue growing 35% MoM since January.
- 94% logo retention since the paid launch.
- 8 pilots underway with mid-market CPA firms.

Product

- 97% invoice-matching accuracy on live client ledgers.
- SOC 2 Type II certified with a full audit trail on every entry.

Market

- \$18B market for AP automation, growing 12% a year.

Competition

- The only AI that closes the books and files sales tax in one flow.

Economics

- 76% gross margin at current scale.
- CAC of \$1,900 with 6-month payback.
- 16 months of runway post-raise.
